## Bloodhounds Track Convicts

Folsom's Escaped Prisoners Still Lead the Posse a Merry Chase.

Fugitives Divided Into Small Parties and Puzzle Their Pursuers.

Compels Lone Miner to Cook Their Meals And Then Rob Him.

Placerville, Aug. 4.—Today has been one of the most exciting in the history of the state. Reports telling of actions of men supposed to be the fugitives are being received at the sheriff's office from many quarters, but as a rule investigation discloses their unworthiness. This evening, however, Sheriff Bossett received a telegram that Deputy Sheriff Jackson had discovered the trail of the men who last night robbed the cabin of George Beasley, a miner, whose claim is located about two miles from what is known as the Copper Lead, on Cosumnes river, and who killed the two militiamen near the Grand Victory mine, on Saturday night.

The convicts commenced to cook their dinner and robbed him of all his clothing and provisions. Leaving the cabin, the party headed toward the Cosumnes and crossed it to the south side of the north fork of the Cosumnes river. It was in this vicinity that Deputy Sheriff Jackson and his party struck the trail, and after thoroughly satisfying themselves that they were on the right track, returned to Placerville. Amador county, to secure reinforcements and supplies. The report which is given some credence by Sheriff Bossett was brought to town today by Charles Bumbartner, a mining engineer, who reported that five of the convicts visited the ranch of a man named Pine, about seven miles southwest of Placerville, this morning, and compelled the ranchman to cook breakfast for them. After leaving Pine's ranch the convicts headed in the general direction of Grizzly flat. Sheriff Bossett is of the opinion that the men who visited Pine's ranch composed what has been known as the Webster creek party of convicts, and he believes that they will endeavor to go up Cosumnes river, thus following the direction of those who fought the militia near the Grand Victory mine, on Saturday night. C. E. Pennell, a resident of Here, is expected to arrive here tomorrow with a couple of bloodhounds to take up the trail of the convicts.

## GERMAN ARMY ABUSES.

Berlin, Aug. 4.—The details published today of a court-martial held at Metz on a non-commissioned officer named Dunkel for maltreating private soldiers at Moerschingen, Lorraine, 500 instances of brutality, occurring since last December, were cited. The evidence showed Dunkel's fertile ingenuity in novel methods of punishment, such as compelling a soldier to run at full tilt across a room and ram his head against a wall.

The court decided that 300 counts of the indictment had been proven, and sentenced Dunkel to two years and a half imprisonment and degradation to the ranks. The scandal became known to the military authorities through the suicide of one of the maltreated men, which an anonymous letter ascribed to Dunkel's brutality.

## Canada Cables For Canadians

Establishment of Independent British-Canadian Service Guaranteed.

Mr. Loy's Governmental Real Estate Deal is Duly Whitewashed.

Ottawa, Aug. 4.—Hon. Mr. Fielding gives notice of a resolution to assist in the establishing and maintaining of an independent and efficient service of telegraphic news from Great Britain for publication in the Canadian press. For three years the cost will be \$15,000 per annum, fourth year \$20,000, and fifth year \$20,000.

It is made a condition that the benefits shall be open on fair and reasonable terms to all newspapers published in Canada, and not less than half the cost of establishing and maintaining the service is to be paid by the proprietors of newspapers participating in the benefits. Mr. Loy, member for Beauharnois, was this morning declared by a majority of the committee on privileges and elections not to have committed any breach of the independence of Parliament Act by reason of his selling personal land to the government. The adoption of a minority report declaring that Loy had full cognizance of the affair, will be moved in the House. The House this afternoon decided to refer the question of granting the report and evidence to the printing committee. The House afterwards took up Hon. W. S. Fielding's resolution on the honours of steel and iron. Hon. Mr. Fielding explained the resolutions, and J. L. Jorden said he was glad to see that the government had wakened up to the necessity of protecting this industry.

Messrs. Duggan and Russell waited on Premier Laurier and Hon. Mr. Fitzpatrick today and presented a memorial from the Manitoba Catholics in regard to the separate school question. Sir Wilfrid Laurier promised a reply on Thursday.

## SIR WILLIAM ON THE GRAND TRUNK

Great Lakes Must Always Be a Factor in the Western Transportation.

Toronto, Aug. 4.—(Special)—Sir William Van Horne, chairman of the C. P. R. board of directors, was in the city today. Discussing the Grand Trunk Pacific proposal, he said: "The Canadian Pacific Railway, the Grand Trunk Pacific Railway nor any other Canadian route will ever voluntarily carry a carload of wheat by an all-railway route across the Great Lakes to an Eastern Canadian port for shipment abroad, for the simple reason that it will never pay any road to do so. Nor will the transportation premiums in the West ever be solved by the construction of an all-Canadian route from coast to coast."

Senator Cox notified Mr. Hays, promoter of the Grand Trunk Pacific, that he will not be able to accept the presidency of the new company, owing to pressure of other business. It is believed that the second vice-president of the Grand Trunk will become head of the new transcontinental system.

Mr. Hays left Montreal last night for England for the purpose of interesting capital in the project.

## ISLAND'S NORTHERN DEVELOPMENTS

Perseverance Mine at Cumberland Being Opened Up—Lumbering.

Nanaimo, Aug. 4.—At a meeting of the Cumberland union this afternoon, the company's offer was declined, but a counter proposition was made. The principal objection of the men is to signing a two-years' contract on the proposed scale. If certain modifications are made, they will accept. Negotiations have been going on for days, and are still continuing. The men being anxious to resume work.

The road to the Perseverance mine is being built and a spur will connect the mine with the railway, so that the coal can be brought down to Union bay. This mine was prospecting some years ago, but never opened up.

Frank Sheppard will leave Nanaimo tomorrow with Frank O'Reilly for the north end of the island to survey the timber lands sold by Mr. Dunsen to an American syndicate. The work will take the remainder of this year and part of next.

There was a lively encounter last evening at the City Council meeting, between Ald. Barnes and Ald. Knarston. Last week the latter questioned the wisdom of some work done by the street committee, of which the former is chairman, and was assured for his pains that he knew more about sealing streets. Ald. Knarston is in the grocery business that he did about making streets. This week Ald. Knarston returned to the charge, armed with facts and figures, and with a very vicious look in his eye. Ald. Barnes, of the Finance committee, had just pointed out that the street committee had exceeded the estimates for the year.

Ald. Knarston attacked this directly to the lunging of the chairman of the street committee. He went into particulars with the aid of some specifications he held in his hand. Upon Ald. Barnes, very brave, "Read it out," he cried. "You cannot read it. Some little boy has been telling you a tale and you have brought it here."

Ald. Knarston—"Ald. Barnes often speaks as the spirits move him. I do not mean the spirit of the air, but the spirit of a liquid nature."

At this point the Mayor interposed, and the other members of the street committee came to the rescue of their chief, explaining which eventually satisfied everybody.

W. E. Wilson, the representative of Wilson & Co., of San Francisco, who has been buying up timber limits on Vancouver Island for several months, tells your correspondent that he has now between eight and ninety thousand acres, the purchase of which has been arranged and will be completed, besides options to a similar extent. He estimates that he controls enough timber to keep a 300,000 foot mill going for 50 years. His last purchase was completed only a day or two ago, and consists of 10,000 acres of timber in one block at Comox, and lying parallel with the shore and only two and a half miles away from it. "I wonder no one else has dropped on these parcels," he said.

Mr. Wilson will begin cutting logs almost immediately in the woods behind Nanaimo. A four-mile track is to be built at once to bring the logs down to salt water. James Kelly, a local contractor, is now at work on a large saw, which is to be used for moving pile driving machinery about to points where booms are to be assembled. As all the timber purchased is free of the government royalty, being on crown granted land, it is destined in all probability for the new German commercial treaty with Russia. Firstly, a heavy reduction in the duties on animals; secondly, to confine the minimum duties on grain to statutory entering in treaty relations with Germany to the exclusion of the United States and Argentina.

## Killed By the Thunder Bolts

Terrific Electric Storms on the Prairies Result in Two Deaths.

Three and a Half Millions for New Buildings in Winnipeg This Year.

Winnipeg, Aug. 4.—Heavy electric storms passed over the western portion of the province last night. At Moosemin, Assa, B. H. Therat, a young farmer, was instantly killed by lightning. One of a section gang was struck dead by lightning two miles east of Deloraine. His name was A. E. Asphol, and came from Sweden. He has a brother in West Superior. The gang, consisting of four men, were returning to Monteth Junction when the bolt fell. Asphol was killed outright, and Wickstrom and Ericson were stunned and fell unconscious.

A stable belonging to Alex. McCulloch, Nanaimo, southwest of the town, was struck by lightning and burned. The earnings of the C. N. R. for the week ending July 31 were \$80,000, as compared with \$49,700 for the corresponding week last year. Permits for buildings representing the sum of \$3,417,300 have been issued by the Winnipeg building inspector this year.

A cricket tournament opened in Winnipeg with great success. Today's play resulted in a victory for Belmont against Minnedosa, and a Winnipeg team won from Morden.

**CONSERVATIVE CANDIDATE.**  
New Westminster, Aug. 4.—(Special)—Conservative delegates from the various districts of the Chilliwack constituency met at Figer Sumas yesterday and nominated J. L. Atkinson as Conservative candidate to oppose the re-election of Mr. Munro. The names before the convention were Atkinson, Cawley and Hill-Tout.

## TERRIBLE TRAGEDY.

A terrible tragedy took place yesterday at noon—at 11:50 a.m.—to be exact—on a small islet abreast of Macaulay Point and firing the cluster of nets where more than 200 campers are living. Two men, who were seemingly engaged in dynamiting fish off the little island, were blown to pieces—shattered to atoms by the explosion of their dynamite, and their remains scattered over the rocks in shreds of human flesh.

The victims, while not clearly identified, are believed to have been Harry Calder, or Caldwell, a surveyor, who has lived for the greater part of his life in Victoria, and one of his sons. This is not clearly established, but Mr. C. T. Jones, from whom one of the victims secured a boat at 8 o'clock yesterday morning, said last night that he had known the man who met such a horrible death for years, and believed him to be Harry Calder, or Caldwell. In hiring the boat, he had said, he intended to take his boys with him and was going fishing—he did not say, however, on his way to Esquimalt, where his wife and family were camped. A can, and the shreds of pieces of a straw hat, found amongst the scattered human flesh on the rocks, seem to indicate that two men were victims of the explosion, and it is thought that they were the surveyor and one of his sons.

**RUSO-GERMANY TREATY.**  
Berlin, Aug. 4.—The papers today print a statement which is regarded as semi-official, to the effect that Russia will insist on two conditions as preliminary to the new German commercial treaty with Russia. Firstly, a heavy reduction in the duties on animals; secondly, to confine the minimum duties on grain to statutory entering in treaty relations with Germany to the exclusion of the United States and Argentina.

They could not ship their logs to the other side. The camp is to be operated at once by Messrs. Christie and Fraser.

Provincial Officer Wilson, who was put on the Miss Marshall assault case at Cloverdale, states that if the neighbors had acted promptly the burglar who inflicted the torture on Miss Marshall would have been captured. They were notified the same night of the assault but left it until the next day when it was too late. The road crosses the river in two places and by running on horseback through these approaches they could have made the burglar's escape impossible.

Mr. W. H. Higgins, president of the lumbermen's association, states that it is incorrect that he is to be a Liberal candidate in the coming election. He was asked to stand but found that for business reasons it is impossible to do so.

## LAWN TENNIS.

There was a large crowd of spectators at the Belcher street courts yesterday, especially towards the latter part of the afternoon, when L. R. Freeman, the California tennis crack, was scheduled to play his initial game in the tournament against F. L. Beecher of Vancouver. Many tennis enthusiasts from the Sound cities were also present, the club being also honored with the attendance of visitors from other points in the province.

Great interest is being shown in all the matches, the attendance being uniformly good throughout the entire day. As this is the first occasion upon which Mr. Freeman has played in a Victoria tournament, votaries of the game were naturally keen to watch his style of play in the game against Mr. Beecher, especially as the winner would be pitted against R. B. Powell in the next round. It was apparent at the outset that Mr. Beecher was outclassed and completely overmatched by the champion's numerous drives, cuts and smashers. Mr. Freeman eventually winning by a score of 6-0, 6-1.

The match between Mr. Freeman and Mr. Powell, which is timed for this afternoon at 2:35, should draw a large audience, as there is every assurance of most exciting play, and the game is bound to be one of the most interesting of the tournament. Mr. Powell is playing excellent tennis at present and has always shown his ability to put up a formidable game against all comers.

As regards yesterday's games, the most exciting and hardest of the day was that between Miss Macrae and Mr. Macrae against Miss Bell and Mr. R. L. Freeman. The latter won by a score of six to three, but the match was by no means a walk-over. Both Miss Macrae and Miss Bell played splendid tennis.

Another good match was that between Mr. J. A. Ritchie and Lieut. Whyte, R. A., which resulted in favor of the former, especially as tomorrow, Friday and Saturday, as the weaker players are weeded out, and the competition narrows to the battles royal between the leading exponents contending for final honors.

The following is the result of yesterday's games:

Mr. F. T. Cornwall and Miss Holmes defeated Mr. F. L. Beecher of Vancouver, and Miss V. Powell 4-0, 6-3, 6-2.

## BASEBALL.

On Friday and Saturday of this week the Majestic team of Seattle will play the Victorians. The visitors team is composed entirely of players of the Fredrickson and Nelson company, the largest house of its kind in the Northwest. The team has played twenty-two games this season, and as they have no grounds at home they have been compelled to play all their games on strange grounds, and in spite of this strong handicap they have lost but three games. Their best performance was at Olympia on the 4th of July, when they shut the Olympia league team out by a score of 2 to 0. The team and their friends went in all, will arrive here on Friday morning and will remain here until Sunday evening. Friday's game will be called at 4:15, the evening being almost too soon now for a full game of ball. Saturday's game will be played at the usual time.

The British American Paint Company did their best at Beacon Hill last evening to cover the E. & N. employees with a coat of immaculate white paint. They succeeded in dabbling the railway men in four innings, the E. & N. representatives not taking kindly to the brush for the other four. Victory finally went to the paint men by a score of 17 to 8. The batterers were Stenart and Grimsman for the E. & N. employees, and Turner and Edwards for the Paint Company. Fred Maynard umpired satisfactorily. The following is the score:

E. & N. 17, Paint Co. 8.

B. H. P. Co. 2, 2, 2, 4, 2, 3, 1, 1.

"See whether I am strong," said the King, and he proceeded to pick his mother up. Mr. Gosnell Interviewed Regarding His Recent Trip to the East.

The E. T. P.—Manitoba Wheat Crop—The U. S. Financial Smash.

Mr. R. E. Gosnell, who accompanied the ministerial delegation to Ottawa, was seen by a Colonist representative upon his return, and was asked to give some of his impressions about Eastern matters. He was very loathe to go into the point, but by a series of interrogatories the reporter gained a few interesting facts, perhaps somewhat different impressions than are received from reading the Eastern newspapers.

"Yes," Mr. Gosnell said, "I was in Ottawa during the time Mr. Blair resigned his portfolio as Minister of the Interior, and heard the statement he made in the House of Commons. It was an occasion of great suppressed excitement and suspense. Mr. Blair is generally regarded as a very strong man, and he made a strong and surprising statement. However, whatever may be the effect hereafter in the country, his attitude is not likely to affect in any material way the strength of the government during the present session."

"There seems to be no doubt that the Grand Trunk Pacific bill will go through the House practically as submitted. I cannot undertake to discuss any feature of it as it may affect the province of British Columbia or the Dominion as a whole. There are some who think that from a military and strategic point of view it should go north of Lake Winnipeg. It is not likely that the House will be able to adjourn before the 15th of September. There was a lot of talk about a general election, but there was nothing definite."

## Hostility to Ralph Smith

**Proposal that He May Secure  
Liberal Leadership Enrages  
Martinites.**

**Red hot Comments Upon the  
Suggestion By Victoria  
Grits.**

When Parson Adams modestly asks Parson Trulliber to lend him the humble sum of fourteen shillings, "until next Saturday night," Fielding indignantly depicts the thunderstruck condition of Parson Trulliber. The enormity, the scandalous effrontery, the wild impudence of the request staggered the pig-breeding parson, and at first he could not speak. But when he did speak! Such, exactly, has been the effect on the Martin-Liberal wing of the announcement made yesterday in a Vancouver despatch that Ralph Smith, who has just returned from Ottawa, would "favorably consider the unanimous nomination of the Liberals for the leadership of the party in this province." At first some of them laughed scornfully at the bare idea, then waxed exceedingly wrath, and told what they knew to Mr. Smith's discredit. Others were so stupefied by what they described as "Smith's stupendous gall" that they could only gasp for breath and roll their eyes to heaven in a mute prayer for the rescue to justice to Mr. Smith's temerity. A "Colonist" representative tried hard to soothe the lacerated feelings of a party of the forming Grits, who were endeavoring to measure the immensity of Mr. Smith's self-assurance.

"Why," said one man, "this fellow (Smith, presumably), must have no more memory than a stick of stove-wood. But he's got a part—a part that fairly hums with malodorous recollections. In the first place, he is not a Liberal at all, but a traitor to the Labor party that elected him. Why did he desert the working men? Because it paid better to do so. This is the politician of every moral, who boasts on the public platform and gets roundly hissed for in that he is not ashamed to take a railway pass and then attack the company." Another indignant Martin-Liberal recited a number of instances to show that Ralph Smith is utterly regardless of his word; whilst another said that if the Liberals decided to elect such a man to

the leadership, he for one was done with that party and all its works.

One man eloquently criticized Mr. Smith's public career and denounced Smith as a faker, a shyster, a turncoat, an opportunist, and other choice metaphors.

It is evident that such a thing as a unanimous nomination for Mr. Smith as leader of the Liberals in this province is out of the question, judging by the very strong feeling against him amongst large numbers of the Liberals of Victoria.

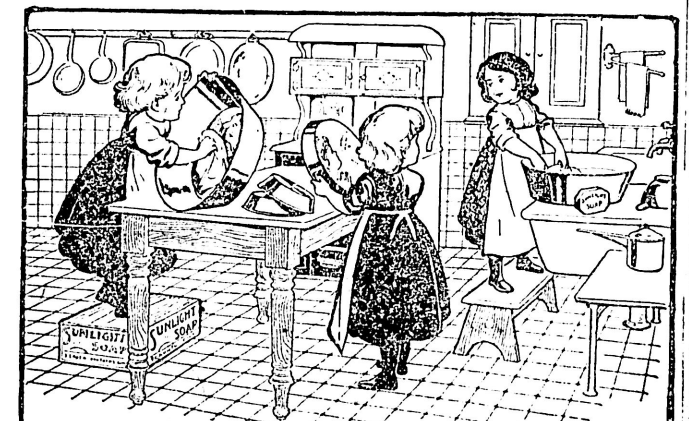

Last evening in Labor hall, corner of Douglas and Johnson streets, a well-attended meeting of the Victoria Socialist party was held for the purpose of nominating four candidates to contest this constituency in the approaching provincial election. The meeting was addressed by Mr. G. Weston Wrigley and others prominent in the cause. General discussion followed, but after nearly two hours' consideration of the whole question it was decided not to make any nominations, but to adjourn the meeting to a later date. This does not mean that the idea of selecting four candidates has been abandoned—the party merely recognizes the fact that they are a little early.

New Westminster, Aug. 3.—The local Liberal Association has not yet taken any steps to nominate a candidate to run against Tom Gifford. The machine-bound Grits threaten all kinds of things on the street corners, but everybody knows that opposition or no opposition, Gifford will represent this city in the next legislature. Mr. J. C. Brown continues a partisan warfare against Mr. McBride in his weekly pamphlet, "The Liberal," and is apparently working himself up into an alarming state of political wrath, but for all that, he is not likely to go looking for a second defeat at the hands of Mr. Gifford.

There are rumors to the effect that Mr. Munro, who is a strong supporter of Mr. McBride, although he is a Liberal, may follow Mr. Gifford's lead and run as a government supporter, in which event he would be sure of election.

Down in the Delta, John Oliver is campaigning with his usual energy. But he has lost a great many supporters by his wilful misrepresentation of the part Mr. McBride took in the South East Kootenay land transaction with the U. P. R., and of his own position in regard to his support of the government he was elected to oppose. He will have an opponent, all right, on election day, and it is quite likely he will be beaten.

## CHEAP RATES TO THE COAST

**Tourist Association Advertising  
Advantages of Summer  
Visits to Victoria.**

An important meeting of the executive of the Tourist Association was held yesterday at the rooms, Fort street. There were present Chas. Hayward, president; L. G. McQuade, D. R. Ker, Ald. Cameron, A. B. Emser, sr., Jas. Forman, A. Henderson, Stephen Jones, F. L. Clarke and the secretary, Herbert Cuthbert.

A very large amount of routine work was got through, and final arrangements were made for the incorporation of the association next month, 25th, to 27th. It is expected that this will be an accomplished fact before the next meeting.

Letters were received from all over the continent asking for information and thanking the association for information already given.

C. E. Fowler, chairman of the executive committee of the Pacific Coast Society of Engineers, wrote a letter of thanks for the excellent arrangements made for their meeting here on Friday of this week. They expect a very satisfactory meeting.

The following letter was received from Mr. E. Worthy:

"Dear Sir,—I have your favor of the 28th inst., asking the use of our Board room for the holding of meetings by the Washington Press Association, who are expected here next month, 25th, to 27th. I referred this matter to the President and am to state that the rooms will be available on that occasion, and as you are attending to the arrangements in the above connection, please accept the Board's offer of their premises free of charge, and notify the proper authorities accordingly.

Please also advise if you have any suggestions to make for the greater convenience and comfort of the visitors.

A letter was received from the B. C. A. A. asking for the appointment of a committee to work with their society in connection with the manufacturing exhibit, and Messrs. D. R. Ker, Jas. Forman and A. Henderson were appointed.

One of the most important items of business was a communication from the Strathcona Board of Trade, with reference to cheap fares to the Coast.

This is a matter which the association has had up continually and has done much to induce the company to treat in a liberal spirit.

It was decided to follow the matter up upon the lines of the Strathcona Board of Trade, and to forward extracts from the letter to the Victoria Board of Trade, the Chamber of Commerce and the B. C. Agricultural Association for their consideration.

The secretary reported that he had yesterday received from Mr. Abbott of the U. P. R., details of the cheap rates now in operation from Winnipeg west, and that immediately upon receipt of that he had the following slip printed:

"For your summer holiday take advantage of the present cheap rates on sale until August 10th, to Victoria, B. C., the Garden City of the Pacific, \$45.00 from Winnipeg to Victoria and return. Good for 60 days with stop-overs. Ask your local agent for rate from your city. Victoria is the most beautiful city, with the most temperate summer climate in Canada, and the cheapest place to "shop" in the West," as an extra page for the small books, picturesque Victoria, and had mailed the same night a large number into Manitoba and that altogether about five thousand would be sent into Manitoba and the Northwest Territories. At least half of them will be mailed to individual addresses so that nearly three thousand homes between here and Winnipeg will receive one in ample time to take advantage of the cheap rates.

Now that the season is fairly open the question of finance came up for consideration. This subject the Tourist Association has not been a troublesome one, but it is felt now that in order to gauge the amount of good work that can be done with the amount of money available must be taken into consideration. A special effort will be made this next week to find this out, so that citizens who have not yet subscribed will have the chance of doing so, and it is hoped that all public spirited citizens who wish to see the work continued and to add their testimony to what has been done, will even if not called upon, forward a substantial subscription.

Perhaps the most sensational device yet found for advertising a novel is that of a London publisher who is bringing out in installments a detective story entitled "Hidden, Not Lost," the plot of which concerns the loss of 500 sovereigns. So cunningly are the facts and fancy blended that, to quote the prospectus, "the story will be fiction, the sovereigns real." They are to be hidden somewhere in a public place in London, accessible to all, and the story itself will give the astute reader the hint as to where they are.

There was a splendid attendance at the Douglas Summer Gardens last evening, the attractions of the pretty surroundings drawing a host of people, who appreciate the delight of listening to a fine programme of band music well rendered and all enjoyed whilst promenading through the grounds or seated beneath some of the fine oaks that adorn this picturesque spot. A representative of the Edison Company has arrived to improve the working of the bioscope, and it is expected that the animated pictures will be of a high order to-night. Nebuchadnezzar the King permitted himself to laugh heartily.

"These wise gazelles—"

He treated himself to another helping of grass—

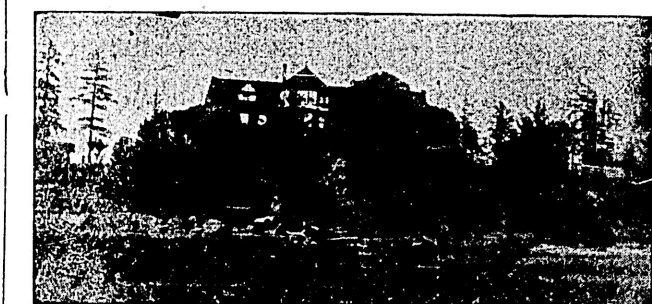

"Think they've got me backed off the  
horns, and that I'm the dumbest  
brother of the ox that ever came out of  
the orchard, but"

He sprinkled a little salt and pepper  
on the dandelion tops and ate them with  
great gusto—

"A few thousand years hence they'll  
get next to the fact that I was onto my  
job."

And he proceeded with the salad  
course.
